

HOMIE AI

Team Plan

How we work. What we're building. Where we're going.

This page is public. We believe in transparency.

”Building free AI tutoring for every student on earth. Not just the ones who can afford it.”

ROSTER

The team

Six people building. Four seats open.

ROLE	PERSON	STATUS
Founder & CEO	Ilgiz Satkynov	Active
Project Manager	Baian Abdyrasulova	Active
Business Development	Lê Nam Khánh	Active
Software Engineer II	Ivan	Active
Software Engineer I	Elina Isaeva	Active
Marketing Manager	Dinara Usonova	Active
Co-founder / CTO	Open	In Process
Lead Designer	Open	In Process

ROLE	PERSON	STATUS
Community Manager	Open	In Process
Operations	Open	In Process

ROLES

Who does what

What each person actually owns, day to day.

Ilgiz Satkynov
Founder & CEO

- Overall product vision and direction
- Final decisions on features and priorities
- Engineering, investor relations, public face of Homie

Baian Abdyrasulova
Project Manager

- Sprint planning and task tracking
- Team coordination and deadlines
- Documentation and process

Lê Nam Khánh
Business Development

- School and university partnerships
- EdTech outreach and deals
- Revenue strategy and growth opportunities

Ivan
Software Engineer II

- Core app architecture and features
- Code reviews and technical decisions
- Performance and scalability

Elina Isaeva
Software Engineer I

- Feature development and bug fixes
- UI implementation from design
- Testing and quality assurance

Dinara Usonova
Marketing Manager

- TikTok, Instagram, LinkedIn strategy
- Content creation and campaigns
- User acquisition and brand growth

TOOLS

How we communicate

The stack that keeps six people moving in sync.

Slack

Daily updates, async comms, team chat.

Join Slack →

GitHub

Code, PRs, issues.

github.com/satkynovilgiz/HomieAI_app →

Notion

Docs, planning, roadmap.

Linear

Tasks, sprints, priorities.

Discord

Community and beta testers.

CADENCE

Team cadence

Kept short on purpose.

Weekly All-hands

Every Monday · 30 mins · Full team

Engineering Sync

Wednesday · 20 mins · Devs only

Async updates

Daily · Slack · Everyone

ROADMAP

Where we’re going

Three phases. No fluff.

PHASE 1

Now

- All app pages working and navigable
- Firebase Google Sign-In live
- App Store submission (iOS)
- 100 real active students

PHASE 2

Next 4 weeks

- Play Store submission (Android)
- 1,000 active students
- Social media presence established
- Full team hired and onboarded

PHASE 3

3 months

- 10,000 active students
- Homie Pro monetization launched
- Seed funding round
- Team expanded to 10+ people

PRODUCT

What we're building

Three pieces, one product.

Mobile App

Expo React Native · iOS + Android

Web App

Next.js · homieai-steel.vercel.app

AI Engine

Gemini API · Voice · Chat · Lessons

VALUES

What we believe

The rules we don't break.

”Ship or it doesn’t exist”

Ideas mean nothing. Shipped features mean everything.

”Students first, always”

Every decision: does this help students learn better?

”Free forever for students”

We'll find other ways to make money. Not from students.

”Radical transparency”

This page exists. That's the vibe.

COMP

Honest talk on comp

No corporate spin. Here's exactly where things stand.

We're pre-revenue. Team members get:

- Real equity stake (discussed per person)
- Full credit and portfolio ownership
- Revenue share when profitable
- Real experience shipping a live product

Formal agreements signed before any funding round.
